DIVISION OF
OIL GAS & MINING

FEB 14 1994

Leonard Garrand
Garrand Corporation
10 Exchange Place
Salt Lake City, Utah 84111

Dear Mr. Garrand:

On August 20, 1987, we accepted your Notice to blast bulk samples from your SIL 2 and 27 mining claims in T. 1 N., R. 6 W., Sections 21 and 26. On January 28, 1994, this office conducted a routine compliance inspection of the bulk sampling areas indicated in your Notice.

The inspection revealed that there has been no surface disturbing activities on either mining claim, other than the possibility that chip samples may have been taken from outcrop exposures. Activities of this nature are considered "casual use," and do not require the submittal of a Notice. We have therefore closed the subject case file due to inactivity. No further surface disturbance is permitted on the subject mining claim.

If you have any questions, or require additional information, please feel free to contact Michael Ford of my staff at (801) 977-4300.

Sincerely,

Howard Hedrick

Re: Notice of Intention to Commence Exploration Activities, SIP Project, Tooele County, Utah

Dear Mr. Hedrick:

Thank you for forwarding the Notice of Intention to Commence Exploration Activities for Leonard J. Garrand's, SIP exploration Project, located in Section 26, T1N, R6W, Tooele County, Utah. Your agency's designated project number is U-69359.

This letter is to inform you that the Division has evaluated the above mentioned BLM Notice of Intent for completeness. As proposed, the application only involves *non-mechanized* (i.e., pick and shovel) work. This level/type of mining-related activity does not meet the disturbance criteria which would allow us to categorize it as a Notice level activity. Therefore, we cannot presently process this application under our regulatory program rules.

Should the operator/claimant revise the notice to include more significant surface disturbing activities, especially those involving *mechanized equipment* (blasting, drilling, trenching, road building, etc.), then we will need to process the NOI and issue a State exploration permit.

Thank you for your cooperation. If you receive further information or amendments for this operation, please notify us so we will be able to update our files accordingly.

Sincerely,

D. Wayne Hedberg
Permit Supervisor
Minerals Regulatory Program
